

Raphael Koh

Mathematical Physicist | [Software Developer](#)

 (289) 259-2733

 raphael-koh

 thoroughcode

 rcykoh@edu.uwaterloo.ca

SKILLS

Languages

Java, Python, Scheme, JavaScript,
HTML, CSS, C

Frameworks

Node.js, Express, Flask

Technologies

Android Studio, LaTeX, Git, MySQL
Bash, AWS, Azure, Heroku

PROJECTS

AstroJump — Java, Android Studio

A jump-based mobile platformer made with **Android Studio**, utilizing the accelerometer and implementing game physics, such as fixing the “time-step” to accommodate varying framerates on different devices.

MayBot — Python, Kik API

A **chat bot** created at Fraser Hacks using the **Kik API**. MayBot is Tinder for Hackers; it connects hackers with teams that are looking for team members based on the quality of the match. Won the **Best Chat Bot** award for Fraser Hacks.

PicFive — HTML, CSS, JavaScript, Node.js, Express, JQuery, Clarifai API, MongoDB, Heroku

A web-based game built at UofTHacks IV that utilizes **machine learning** and **computer vision** via the **Clarifai API** to process images uploaded by players and associate words to them.

EXPERIENCE

Hack the North, University of Waterloo — Community Manager

FEBRUARY 2017 – PRESENT

- Part of the organizing team for the biggest hackathon in Canada with over 1,000 participants from all around the world.
- In charge of organizing and planning workshops and events for the Waterloo community.
- Generate interest and foster growth of the Kitchener-Waterloo hacker community through promotion of the event.

Waterloop, University of Waterloo — EM Systems Team Member

OCTOBER 2016 – PRESENT

- Designed the magnetic braking system for pod and conducted mathematical testing to optimize the efficiency of the brakes.
- Worked with mathematical modelling software, such as **NumPy** and **Matplotlib**, to plot data and predict test results.

MathSoc, University of Waterloo — First Year Representative

OCTOBER 2016 – APRIL 2017

- Worked extensively with first year students in the Faculty of Mathematics to represent them on MathSoc Council.
- Organized three events geared towards helping first year students relax, adjust to campus life, and network with upper years to get insight on academic and career opportunities. Had massive turnouts of almost 150 students.

Singapore Armed Forces, Singapore — Platoon Sergeant

FEBRUARY 2014 – MARCH 2016

- Trained a company of 264 recruits, by imparting soldier fundamentals, military knowledge, and instilling discipline.
- Responsible for planning the company’s training schedule and organizing military exercises.

EDUCATION

University of Waterloo, Waterloo, ON — Bachelor of Mathematics, Honours, Co-op, 2B

SEPTEMBER 2016 – APRIL 2021

Term average: 91.6%, Term Dean’s Honours List

AWARDS & ACHIEVEMENTS

School Sergeant Major Coin

DECEMBER 2015

Prestigious award given to selected specialists who have displayed outstanding leadership in training recruits and setting a role model for fellow commanders.

Rotary Club of Oakville West Academic Excellence Award

2013

Awarded to students based on academic excellence, extracurricular activities, and community involvement.

National AP Scholar

JUNE 2013

Attained a score of 5 on all 5 AP exams (AP Physics B, AP Biology, AP Chemistry, AP Calculus BC, AP Statistics)
